# ABOUT MAGMA3C

Call Center Solutions

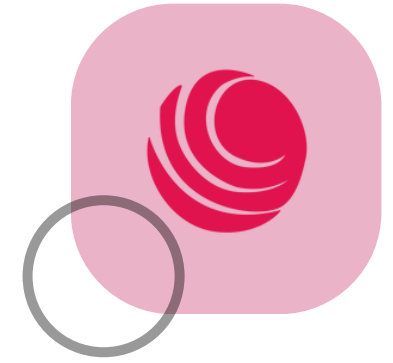

It was a pleasure speaking with you earlier. I'm excited to share how our expertise in IT solutions and IPPBX systems can optimize your business communication and IT infrastructure.

## We offer comprehensive solutions in:

- Hardware & Infrastructure
- Software Solutions
- Unified Communication
- Virtualization & Cloud

## Recent Projects:

In Textile, we have recently completed the following task

### 01 **Style Textile** ([Visit Website](#))

Installed IP PBX systems integrated with Skype for Business.

### 02 **Shahzad Textile** ([Visit Website](#))

Upgraded IT infrastructure, implemented disaster recovery, virtualized systems, and installed IP PBX.

### 03 **Rustam Towel** ([Visit Website](#))

Modernized IT infrastructure, implemented SAP, and upgraded communication systems.

### 03 **Islamabad Diagnostic Centre (IDC)** ([Visit Website](#))

Managed nationwide contact centers with VoIP for audio and video conferencing.

# BENEFITS OF IPPBX SOLUTIONS:

## **Integrated Communication**

Unified platforms for enhanced productivity.

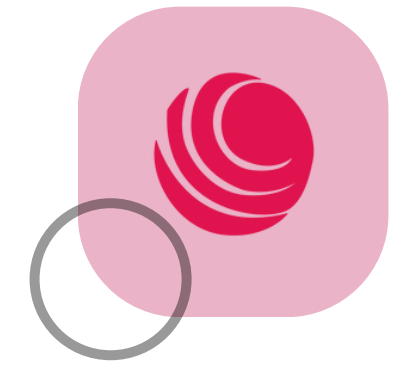

## **Seamless Communication**

A single user can manage communication across multiple offices from one location, ensuring connectivity with all branches simultaneously.

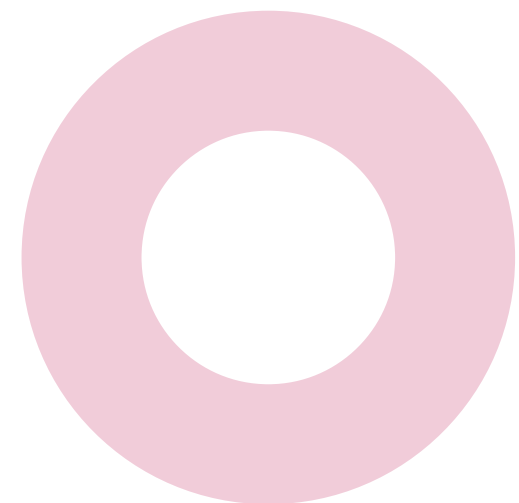

## **Remote Work Ready**

Seamless collaboration for distributed teams.

# IPPBX Features

Standard IP phones offer vital features like call forwarding and voicemail, guaranteeing efficient communication within businesses and seamlessly integrating with office systems.
